

What's the batting average among those who have taken it? How successful has it been in transforming

What's the batting average among those who have taken it? How successful has it been in transforming lives?

Five years after people have taken it, I still get congratulations from students for helping them with their newly transformed lives. Many came to the workshop stuck in their lives, stuck between marriages, occupations, dreams, relationships, or simply unable to overcome inertia. Many have done really wonderful work in getting new phases of their lives going after the workshop.
