

What kind of people have taken TCU?

All types---CEOs, housewives, students, engineers, businessmen, teachers, writers, painters, nuns, military, priests, counselors, retirees, OFWs, trainees, etc. of all ages from 18 to past 70. Normally, I do not accept students below 18 unless I can talk to them first and determine if they are ready for it.

Why is that?

The workshop works best with people who have actually lived and worked and faced disappointments and frustrations that have affected or blocked their natural, in-born creativity. I feel that many times, people who are too young react to the workshop intellectually, and not in the experiential manner that I would want them to. Thus, deep and lasting change does not happen as much.
